NORTHERN ALBERTA XTREME HOCKEY ACADEMY

NAX
NORTHERN ALBERTA XTREME HOCKEY ACADEMY
NORTHERN ALBERTA XTREME'S MISSION IS TO PROVIDE A SUPPORTIVE LEARNING ENVIRONMENT THAT STRIVES FOR EXCELLENCE IN ACADEMICS AND ATHLETICS
MESSAGE FROM THE PRESIDENT & DIRECTOR
JASON STEWART

On behalf of Dynamic Hockey Development and the Northern Alberta Xtreme, I am very excited to welcome everyone to the Female and Male Team Programs. It is with great enthusiasm that I look forward to another season filled with tremendous competition as an Elite Hockey Program in Western Canada. Our young student-athletes compete against some of the most prestigious hockey organizations across North America and it is our goal to help each and every athlete in their pursuit of excellence and to assist them in their advancement to the next level. Competing in the Canadian Sports School Hockey League (CSSHL) for both our Female and Male Teams provides us tremendous opportunity to further establish the Xtreme program name as a premier hockey program in Western Canada. On behalf of the entire hockey staff, I wish to thank everyone for continuing to support the Northern Alberta Xtreme. I would like to thank our partners in the community (Town of Devon) and our partners in Education (Black Gold School District's John Maland High School and Riverview Middle School)
CORE VALUES

COMMUNITY
To maintain our standing and be a positive member of Hockey Canada/Hockey Alberta/Canadian Sports School Hockey League along with the Black Gold School District and Town of Devon.

RESPECT
We will maintain the well-being of our student-athletes and staff by focusing on them at the core of every decision. We will also keep at the forefront an understanding and appreciation of respect for each individual member’s contribution to the environment of the organization.

TRADITION
To build and maintain a sense of pride within the community, school district and organization by maintaining a proud history of success in academics and athletics.

CHARACTER
To positively impact and maintain a strong foundation of the mental, physical, emotional and moral qualities of each student-athlete within our organization.

GOALS

To provide a Safe, Fun and Competitive learning environment for all student-athletes.

To provide opportunities that support further development and positive self-growth.

To enhance character development through the emotional, physical and mental benefits of sport.
THE NORTHERN ALBERTA XTREME (NAX) PROGRAM WAS LAUNCHED IN 2013 BY JASON STEWART WITH THE CREATION OF THE FEMALE PROGRAM. OVER THE YEARS THE DEVON, AB AREA PROGRAM HAS EXPANDED TO ITS PRESENT-DAY STAGE OF FIVE TEAMS.

CURRENT TEAMS:
- U18 PREP
- FEMALE U18 PREP
- U16 PREP
- U15 PREP
- U15
U18 FEMALE PREP

2013-2014
Program launched

2013-2016
Coach: Leah Copeland

2016-2017
Joins CSSHL

2016-2019
Coach: Cassea Schols

2019-2021
Coach: Tyrel Spitzer

2017 - 2018
League Semi-Finalists
Launched and joins the CSSHL in the U15 division
Coach: Kane Lafranchise

Athletic Therapist
Our student athletes' practice on-ice Monday to Friday. After practice our student-athletes are transported to school where they train with Barry Butt and his Premier Strength staff four days a week. Our student-athletes then participate in the academic portion of their schedule at school in the afternoons, with a goal to have them home for dinner and evenings with their families or host-families.

Our teams play 45-55 games a season, which includes the CSSHL regular season and Championships, exhibition games and tournaments.
WHAT DOES THE ON AND OFF ICE TRAINING LOOK LIKE?

NAX incorporates a variety of technical skills coaches, along with each team coaching staff, to assist with player development in the program. Practices are designed in advance to provide a balance between individual skill trainings (skating, shooting, passing, etc.) and team structure (systems, concepts, etc.) to ensure our student-athletes can achieve both individual and team success and growth. Off ice, each team works closely with the program’s strength and conditioning coach, as well as various other off ice seminars such as video work, mental training and nutrition.

QUICK SUMMARY

3 team structure practices per week on ice
2 technical skills and skating practices per week
Weekly video sessions
Monthly well-being sessions
45-55 games
**DO YOU OFFER A BILLETING PROGRAM OR A DORMITORY FOR NON-LOCAL STUDENT ATHLETES?**

Our billet program is designed to copy that of many of the top junior teams in Alberta. Student-athletes requiring billets are encouraged to stay with family or friends if possible, but we understand this isn't always an option. If a student-athlete does not have family or friends to stay with, we help set them up with one of our host-families, allowing both parties to meet and decide whether it will be a good fit before any commitments are made. It is important to us that both the student-athlete, their family, and the host-family all feel comfortable in the situation.

**WHAT KIND OF LIFE SKILLS DO THE STUDENT ATHLETES LEARN BY LIVING WITH BILLETS?**

As our student-athletes progress to Junior/University, staying at home is often no longer an option and billeting or dorm rooms are required. Our billet program allows our student-athletes the ability to prepare for these challenges at a younger age, while their support system is still strong. Our student-athletes learn respect for others and their homes, independence, how to operate in a new environment, and the importance of family and structure. Our student-athletes also build lifelong connections with their billet families.
STUDENT ATHLETE HEALTH

How are injuries and sick student athletes monitored? University of Alberta Sport Performance Coach and Rehabilitation Specialist Matt Yaworski is a Certified Strength and Conditioning Specialist and Certified Athletic Therapist. He is present at our facilities every week and either works with our student-athletes or directs them to the appropriate specialist based on his assessment. The program employs Nicole Wlasichuk (Certified EMR and a Bachelor's Degree in Kinesiology) to handle all game day, and day to day training needs.

FACILITIES

NAX currently uses Dale Fisher Arena (Devon, AB) and River Cree Twin Arenas (Edmonton, AB) for on-ice training. Our student athletes attend John Maland High School and Riverview Junior High, with all off-ice training taking place at John Maland.
ACADEMICS

When the CSSHL was founded in 2009, the focus was not only placed on hockey but that education of young athletes is of the utmost importance. Our programs have a structured yet supportive environment to help balance academic work loads.

With the uniquely structured academics and learned time management skills, the student athlete has the opportunity to chase their goals without compromising their education.

DEVELOPMENT

The majority of games in the CSSHL take place on weekends, in a showcase format. Programs in each division take turns hosting these Showcase Weekends, which sees multiple teams in one location playing multiple games. This format cuts down on travel time, as well as school days missed. Teams will also play a small number of flex games through the season on non-showcase weekends.

Although it varies with each program, our students are on the ice almost every day. During the week, players take part in structural practices and skill development sessions. Each team works closely with their respective program's strength and conditioning coach, as well as various other off ice seminars such as video work, mental training and nutrition.

CHARACTER AND CITIZENSHIP

Players come from all over the world to join CSSHL programs. During the 2015-16 season, we had players from 18 countries compete, including eight Canadian provinces, all three Canadian territories and 11 American states.

The CSSHL prides itself on not only developing players on the ice, but also inspiring them off the ice. Players leave our programs prepared for the next step in their life, whether it be post-secondary education, the work force, or wherever their path may take them. Off-ice conduct is taken very seriously in the CSSHL, from appearance to behaviour. Because of the standards we keep, we feel our players come to us as teenagers, but leave as young adults.
WHAT ARE SOME OF THE THINGS YOUR PROGRAM DOES TO PROVIDE EDUCATIONAL SUPPORT?

Our student-athletes integrate into classes at both John Maland High School and Riverview Middle School. To ensure education does not get lost in the background, NAX incorporates an Academic Director Paula Smith at John Maland High School and Charla Ceulemans at Riverview Middle School who work to ensure that both the long-term and short-term academic planning for our student-athletes is properly organized. Small classes, strong and supportive teachers often travel on the road with our teams to ensure our student-athletes receive plenty of quality instruction from their teachers. While traveling, study halls are scheduled daily to ensure our student-athletes have time to make up for missed class time. All team practices and game schedules work specifically with the educational commitments and expectations of our student-athletes and it is our expectation that all teams within our program be finished their daily routines (school and hockey) by 5:00pm each day; thereby, allowing student-athletes some much needed time for proper rest and the ability to maintain a 'LIFE' away from the rink.
HOW ARE GRADES MONITORED AND HOW OFTEN?

Our coaches communicate every week with both teachers and the student-athletes themselves to ensure the student-athlete is continuing to excel to their highest level in the classroom. Our Director of Academics also ensures that each of our athletes is on top of their academics by regularly monitoring and communicating with teachers and students.

HOW ARE COURSES AND THE GRADUATION PATH FOR STUDENT ATHLETES CHOSEN?

Academic Director Paula Smith sits down with each and every student-athlete when they join the program to map out a graduation plan specific to that student-athlete’s needs and goals. John Maland High School is also recognized as an official SAT Test Writing Center.

DO YOU HAVE AN ACADEMIC PROBATION POLICY?

NAX works efficiently to track the progress of our student-athletes in all of their classes. We do not ask our student-athletes to reach or maintain a specific overall grade average. Instead we expect and require them to meet or exceed their academic standard to the best of their ability. A failure to do so results in missed practices or games until the student-athlete meets their individual standards.

QUICK SUMMARY

Partner School (Grades 10-12): John Maland High School
Partner School (Grade 8-9): Riverview Junior High School
NAX incorporates an Academic Director Paula Smith at John Maland High School and Charla Ceulemans at Riverview Middle School.

Coaches communicate every week with both teachers and the student-athletes.
I was in the Northern Alberta Xtreme program for three years from grade 10 to grade 12. Prior to coming to NAX I was in French Immersion, so the transition from French to English was something that I had to overcome.

I feel that I was very well supported in my academics at NAX because I had many resources to help me out between Paula Smith, the staff at John Maland High School and my coaches. Paula was the main link between the school and the coaches, ensuring that everyone was always on the same page. Having the coaches in class on Friday mornings also helped encourage communication.

Before leaving for a trip we had our teachers fill out a sheet of what we would be missing, which was then verified by Paula. Occasionally, she would proctor exams for us on the road, and otherwise we would make up exams during lunch, in class, or after school upon our return. Marks are updated on PowerSchool regularly, which are available to Paula, each player and their parents.

When I joined the program, one of the things that appealed to me was the combination of school and hockey. With school and hockey being combined, I was able to earn credits for my training. Moreover, I would have more time in the evening to do my schoolwork because I was not having late night practices like I would with a regular team. I think that the biggest difference for me compared to previous schooling was going to school with my teammates. As players going to school together, we were able to lean on each other for support.

I think that my academic interests and abilities remained high during my time at NAX because the program helped to support me.

I am currently pursuing a Bachelor of Commerce degree at Saint Mary's University on a hockey scholarship. I feel that the academic system at NAX was instrumental in my preparation for University and has been an integral part of my academic success. The combination of school and hockey forces time-management and teaches players how to balance academics and athletics. Missing class for travel was challenging, but I think that it has made the transition to be a university level student-athlete smoother. I learned how to manage my time and get work done on the road, skills which I have continued to apply now in University.

I am very grateful for my time at NAX and feel that it has significantly contributed to my academic success, and development as a person. John Maland High School is a great environment and the staff are committed to helping players academically.
The big difference between the NAX academic structure and Michael's previous schooling has been Paula Smith, the academic director. We did not have this kind of resource in the public-school system. It is unique that they employ an academic director that works closely with each athlete to help facilitate academic success. Paula has been excellent. When Michael has had difficulties in a class, there has been good coordinated feedback from both Paula and the teachers. Paula is very caring and very firm. I believe that this combination has earned her the respect of the athletes. She knows each athlete/student very well and goes out of her way to help them achieve their academic goals. From daily help with homework, to counselling about which courses to take, to just being a solid every day advocate for the athletes. The coaches and Paula collaborate extremely well to make sure the boys have academic success.

My main concern when Michael joined NAX was that he would miss classes and fall behind in his school work, but the program always brought an education liaison on the road with the team to ensure that the athletes did not fall behind on their academics. As well, designated study hall is incorporated within their hockey schedules to help facilitate academic success. I think having a teacher travel with them and having designated study hall prevented Michael from falling behind.

The schedule and the way NAX approach schooling closely mimics how things are done at the College level: practice during the week, attend classes, and play on the weekend. It's a rigorous schedule and I think the program does a great job of keeping their athletes on a strict schedule so that they stay organized and on top of their academics. The teachers at the school are very understanding of the vigorous schedule and will accommodate the athletes by rescheduling tests and extending deadlines. It was helpful to have a structured day where he could be home early, eat dinner, and have the rest of the evening to either do homework or something else. There has been a big improvement in Michael in that he makes his academics more of a priority than he has in the past. Part of that is he has learned much better time management.

Lucas Ciona 6th round, 173rd overall - Calgary Flames
Connor McClennon 6th round, 178th overall - Philadelphia Flyers
WHAT IS INCLUDED IN THE PRICE TO ATTEND THE NAX?

Our 2019/2020 cost for the NAX program was $22,000 plus GST. This includes games, practices, tournaments, all travel related costs, and apparel and equipment such as gloves, helmets, pant shells, and bags. As not all of our student-athletes require billets, this is a separate cost between the host-family and student-athletes family (on average $300-$500 a month).
